Subject: TASC Update

Hi Debbie, Ana, Carol and Doug,

I hope all of you had a wonderful holiday. I just wanted to let you know that we have received direction from EPA to continue working with you as we outlined in the schedule that we created at the end of last year. As of now, Terrie and I are working on providing a summary and comments on the CPG letter to the NRRB. These will mostly be comments about things to check for in the revised FFS when it is released. We are also going to begin working on the tables that we discussed: an outline of types of dredging and other projects that are similar to what is being proposed for the Passaic River. As you know, our contract ends January 22. We will complete our summary and comments/questions on the CPG letter to the NRRB by then, as well as have templates and portions of the tables filled in. Let me know if there are any questions or concerns about this work. If it sounds good, would you all be available to meet in the latter half of next week, once we have something to show to you? Thursday, Jan 17, would be best for us, but we could maybe work out something for Wednesday, January 16 or Friday January 18.

Best,

Kirby
